A legacy that is altering the real estate market in Pune. VTP Realty is currently the top real estate brand in Pune. A feat made possible by years of enduring goodwill and a well-deserved reputation as a trustworthy turnaround specialist who has taken over big, unviable projects and turned them around. Codename Township Pegasus and Codename Township Blue Waters in East and West Pune,

respectively, serve as examples. We also gain from our group's 35-year history in the building sector. Through backward integration, we obtain 70% of the building materials we need from our group companies, allowing us to produce higher-quality homes faster. Cement provider VTP Materials ranked first in West India for cement supply, and No. 2 in Maharashtra is Pune. Nearly every national developer is a client of Viraj Projects, which is a prominent infrastructure development and construction contracting organisation that falls under the umbrella of the VTP Group. In every sector of the economy where we work, we have successfully established our leadership.
