## Digital

There needs to be a harmonious balance between the offline & digital worlds for a brand. Often, we see a disconnect between the two & hence our focus on strengthening the brand in both worlds. We believe in striving for meaningful & real engagement between the brand & its customers.

The digital strategy of a company stands on three pillars :

- Content Calendar
- Engagement campaigns
- Influencer relations

There has to be consistency in terms of writing, managing, and finding the right tone of voice and way of generating content for each platform.

- Responsive Website
- Social Media Management
- Mobile Apps\Digital Activations
- Search Engine Optimization
- Search Engine Marketing
- User Experience
- Content Management
