

## Know About Indian Screenwriter Muhammad Asif Ali

Through this article, we are going to tell you about a person who made his debut in the film industry only at the age of 10.

**Kashipur, Uttarakhand Feb 2, 2023 ([IssueWire.com](http://IssueWire.com))** - Muhammad Asif Ali is an Indian author, poet, screenwriter, web designer, entrepreneur, and novelist, Who was born on 13 March 2001 in Kashipur, Udham Singh Nagar, Uttarakhand. Asif completed his studies at Jamia Millia Islamia and founded the software company Prizmweb Technologies along with his three brothers Mohd AARIF, Mohd Asim Khan, and Danish Khan.

### First TV Serial

Asif is also known as a film writer and screenwriter. He made his debut in the film industry with the TV serial 'Ishq Ibadat'. Along with this serial, he wrote stories, scripts, and dialogues for other TV dramas. Asif made a place in the Bollywood film industry by writing the story of actor Anil Kapoor's famous film "Ek Ladki Ko Dekha Toh Aisa Laga". For which he got many awards. Then in 2018, Asif worked as a writer in 'Kasautii Zindagii Kay' and in 2021 in 'Tadap'. Stepping into the film industry, Asif also founded the Indian NGO Youtreex Foundation, which aims to promote art and culture.

### Entry into the Film Industry

The character created by Asif by collaborating with the famous actors and actresses of the film industry is truly commendable. Due to his fame, Asif also got a chance to work in two famous Bollywood films to be released in the year 2023, namely 'Yaariyan 2' and 'Yodha'. Both these films are going to release this

year with a big budget and are being directed by Vinay Sapru, Radhika Rao, and Pushkar Ojha, Sagar Ambre.
