Fort Wayne, Indiana Jan 9, 2023 (Issuewire.com) - Nicole Decamp, a prolific artist who designs and licenses her work to retailers and product manufacturers worldwide is set to debut 8 fabric collections with her new licensing partner Benartex in 2023.

Nicole's first line, For the Love of Coffee, includes 18 unique patterns and 1 fabric panel that pays homage to what has become a beloved obsession...coffee. How can you not love coffee? The fondness for coffee is often exquisitely intense and she has created a lively collection that showcases the passion for our favorite cup of Joe in its many forms. Cappuccino, latte, and espresso are all represented, paired with scattered coffee beans and fun phrases. By adding geometric and medallion motifs Nicole gives her debut collection for Benartex a fresh new spin on this traditional everyday theme. This collection hit the market for wholesale buying in October 2022 and is scheduled to be in stores by April 2023.

But, the fabric journey for Nicole doesn't stop there. She has 7 additional fabric collections coming out with Benartex in 2023 that will be spread throughout each quarter. Some popular themes include Juvenile, Easter, Christmas, and Fall to name a few.

"It's an exciting time as I dive into the sewing world and I can't wait to see how this long-term partnership with Benartex grows over time. Benartex is a beloved staple in the world of fabric and I can't wait to see where this takes us. I am blessed to have partnered with such a great company and their team has been so supportive of me and my work." says Nicole.

Nicole also licenses her artwork to other retail areas including home décor, tableware, giftware, and party goods. She is represented by Sagebrush Fine Art for additional inquiries.

About Nicole DeCamp

Nicole DeCamp started as an artist at the age of 5 when her father sat her in a chair at their family-owned restaurant and allowed her to sell her work to the customers for 10 cents. Her elementary school friends would also pay her a small fee to draw pictures for them while on the playground during recess. It was during that time that Nicole knew what she wanted to do with her life....make her living by creating art and having her own business. She started her career as a graphic designer in the advertising industry where she spent 7 years creating websites and print-related materials for large, nationally recognized clients. But, as an experienced artist as well, she missed drawing and painting. As a result, she spent 13 years designing and illustrating products for an international party supply retailer. In 2017 the talent, confidence, and experience she developed there allowed her to branch out into having her own full-time freelance design and art licensing business, ND Art and Design. And as a result, she has created art for a wide range of retail products including decorative gift boxes, partyware, ceramics, fabrics and garden flags, and much more.
