ENERGYNEVERDIESS & PR James Lee of NYC talks Music, Fashion , Movies & Romance

Los Angeles, California Feb 24, 2023 (IssueWire.com) - A interview about Multi Genre Music Artist ENERGYNEVERDIESS favorite hobbies and passions

James Lee

When did you begin to take music seriously

ENERGYNEVERDIESS

Around the time of June. 18 2018 i recorded Satan's Plan and that's when everything took off for me.

James Lee

Songs like [EVERYTHING](#) from [6FeettilHell](#) Are one of your more popular songs why not just make music like that

ENERGYNEVERDIESS

ill always make songs like that but i jump between genres because i love music so much. i could never stick to 1 sound & style that's just not me.

James Lee

What is your favorite of all your projects you released

ENERGYNEVERDIESS

I have no favorite it depends on the mood I'm in the projects are made to mix up and switch between all of my favorite genres. I enjoy all my projects they represent different time capsules and mood tones in my life. I feel like if I were to release a project Called my favorites or ENERGYNEVERDIESS Greatest Hits that would for sure be my favorite Because there is bits of pieces of my favorite songs spread out. the original 6FeettilHell is made to be a album with 13 classic tracks in my opinion. But at the time the management I was with did not feel it was wise to release so many songs being a new artist. But I disagree. I feel like if the work is timeless, it will speak for itself so even if I blow up later or

two weeks from now or an hour from now, you can always go back and listen to those songs with some famous, and the goal is for them to still be relevant in the current space into stand the test of time.

James Lee

Who is some of your favorite entertainers of Hollywood

ENERGYNEVERDIESS

[Yara Shahidi](#), Kanye West, Jaden & Willow Smith, XXXTENTACION, Juice Wrld, Lil Wayne, Beyoncé, Jay Z, J Cole, Lil Uzi Vert, Playboi Carti & Opium

James Lee

What is it about music that makes you so passionate

ENERGYNEVERDIESS

Everything, the way it feels sounds and how it feels to create it. Without music I would go crazy. May not even be alive if it weren't for music. Music is apart of my soul and spirit.. It's like man without music there no life many people would agree with me. Even when we take a break from music we always come back to it.

James Lee

Do you still film direct film produce & film edit any upcoming projects for [Director Christopher Hugh](#)

ENERGYNEVERDIESS

I am very much still into film I have so many film ideas and concepts typed out. Other than

music movies is one of my biggest influences and passions I love to film, direct, & edit. One day I hope to have a couple movies Do over \$300 million at the box office. I watched The Reading 2023 starring Mo'Nique I enjoyed that a lot I love suspense, thriller, & horror films. Those are the types of movies I want to make but I'm open to try new things such as comedy action CGI I got a open mind about it. I'm a student of Director James Wan & Stephen King, I don't know them personally. But I'm a student none the less. Film is a huge part of me and when the time is right I want to get fully indulged into major filming projects. But first I want the music to take off that's what I'm focused on for now. Once I have success in music, I move on to film. And yes I'm still Director Christopher Hugh I'm no where near done with film I got so much to accomplish I wish someone would come put a large budget behind my films. I have some very great ideas. They're really good and this is not me trying to sell you anything because I'm speaking about myself, but I'm telling you these movies a good I would love for major movie production company to come look at it I would even sale the script or plot for the right price.

James Lee

I'm also a fan of street wear. One of

my favorite stores located in La is called Flashers on melrose lots of exclusive pieces from major, independent and upcoming designers.

James Lee

How did you come up with the name [ENERGYNEVERDIESS](#)

ENERGYNEVERDIESS

I was done with music and I was doing film full time. I was very depressed at the time & XXXTENTACION began to become popular I checked out his music and it was very chill i liked it. I could relate to songs like SKIN, Ghost and ALONE pt 1,2,3 & RUN. Shortly after his passing it's like i could feel his presence and he was upset with me for giving up on life and goals and just wanting to end it all. I was sick of life. He told me don't give up & to leave a legacy, its like he wanted me to be more grateful for life he didn't speak it, it was like communicating through energy. I called my self The E.N.D. As in the energy never dies [ENERGYNEVERDIESS](#). while I was on set filming others I knew I wanted to do music then but i never felt complete as a artist and didn't feel the time was right. I wanted to do music since 13 years old. Working around Young Thug & Director Be el Be majority of the time feeling like your having to hide your love for music just so you can be more professional on set as a film director, photographer or DP. But when X passed something clicked in me. It was like all of a sudden i knew what i was supposed to be doing. I want to touch souls and change lives through my music, to me it's about the legacy and impact & the energy because no matter what the energy never dies.

James Lee

What are some of your favorite places to hang out

ENERGYNEVERDIESS

The recording studio , The Underground Museum Los Angeles, movie theater, and on set of film, eating Pappadeaux, I love to shop at Flashers & the store next to it I can't seem to remember the name off top. But its all on melrose.

James Lee

Are you in a relationship

ENERGYNEVERDIESS

No, I am not in a relationship. I am single for now That way I focus on my career but I'm always open for love. But I don't want to force it. I love really hard i believe in love at first sight but for now I just gotta focus on me that would be whats best for my career & Legacy. I want to be remembered forever. In a perfect world I'd be married to a beautiful smart woman who is a actress Fashion Designer, director, loves music and wants to grow a Movie and Music company and just loves entertainment all around. Its my perfect idea power couple. We would be able to film & edit each others footage. We will support each others films and music. Its out there somewhere she could be reading this right now.

James Lee

In 3 years where do you see yourself

ENERGYNEVERDIESS

Very rich and wealthy, with great credit, living in a mansion in Beverly Hills signed to a major record label ruining my own label and have lots of awards and achievements and accolades and a Grammy or two. I also want a beach house in Miami or something crazy like that I want multiple homes.

James Lee

How about 10 years from now, where will you be

ENERGYNEVERDIESS

One of the most talked about relevant rock star legends of all time, one of the biggest in the world, if not the biggest in the world blockbuster hit movies, anime series, film production

company, successful record label successful liquor and wine successful fashion company. My wife and I would run it we'd be the perfect power couple I'm not gonna lie life has got me very excited lately. Dreams really come true. We just gotta focus on our desires, and believe in ourselves, and we can manifest anything.
