Bishops Castle, Shropshire Feb 27, 2023 (Issuewire.com) - Francesca Fitzherbert has announced a new online business called OysterAUK, selling hand-painted oysters and scallop shells. The shell design offers intricate designs that are both beautiful and unique. Fitzherbert's hand-painted shell is

always coming up with new designs, ensuring that each shell is a one-of-a-kind work of art. One of the most exciting aspects of Fitzherbert's new business is the availability of personalised commission orders. Customers can now request any name to be painted onto a shell, making it a truly bespoke product.

[Hand-painted shells](#) are an iconic and timeless item. They have been used for centuries to decorate everything from furniture to jewellery, but now they can also be a perfect gift and ornament. The art of hand painting is difficult, delicate work that requires great attention to detail. Each shell is unique, and therefore no two pieces are the same.

Shells are made of seashells which are naturally very strong, sturdy, and durable. They vary in size and shape depending on the species of seashell they were once attached to during their lifetime. The shells come in a variety of colours, such as white, pink, yellow, or even green. They can also be decorated with different designs, such as flowers, borders, or even pictures of animals.

Fitzherbert's passion for creating hand-painted shells stems from her love of the ocean. Fitzherbert's collection of hand-painted shells is sure to delight anyone who receives it as a gift or keepsake. She uses all-natural materials such as abandoned oyster shells from the beach, sand, and paint to create each piece.

Now, with the launch of her hand-painted oyster and scallop shells business, Fitzherbert is hoping to reach a wider audience and share her creations with the world. Her hand-painted shells are perfect for anyone looking for a special and personalised gift and are sure to delight anyone who receives them.'

"I am so excited to be launching this new business and sharing my love of hand-painted shells with others," said Fitzherbert. "Each shell is a labour of love and I take great care to ensure that every detail is perfect. I am always coming up with new designs and I can't wait to see what people think of them."
