

AmpVolts: Let's grow this rEVolution together ! | EV Charging Solution

AmpVolts is a company with progressive thinking. We sense market requirements and bring optimum technology solutions to society.

Vadodara, Gujarat Apr 1, 2023 ([IssueWire.com](https://www.issuewire.com)) - Electric vehicle charging stations are the need of the hour and [AmpVolts](#) makes sure you can buy your next Electric Vehicle without any “Range Anxiety”.

AmpVolts offers you a wide range of EV chargers that comprises numerous types of [AC & DC chargers](#). Our MADE IN INDIA chargers are sturdy, reliable, and come with all the safety features. We have an extensive range of chargers that supports from 2-wheelers to trucks, buses, and all EV vehicle classes.

We provide innovative and cost-effective chargers that assist clients in achieving higher ROI and efficiency throughout the product life cycle. We also have a mobile application named VerdeMobility app that helps us to find Verde EV chargers, book slots to charge in advance, and make online payments.

We also have a global presence in different countries like US, UK, Singapore, Bulgaria, Portugal, Spain, Turkey, Kanya, and Uruguay.

If you own, manage, or have vacant land, you can add a charging station to it to increase customer foot traffic and [generate additional revenue](#) from charging.
