

Best in Social Media and Open Source Investigations

Experts bring combatting insurance fraud to the forefront earning top award.

W3 Intelligence Research Group Inc.

Experts in Social Media and Open Source Intelligence

Toronto, Ontario Mar 1, 2023 ([IssueWire.com](https://www.IssueWire.com)) - W3 Intelligence Research Group Inc., graciously announces that it is the recipient of Corporate Vision's 2023 Canadian Business Award, "Best in Social Media and Open Source Investigations". These awards delve into the top industries, regions, executives, and developments spearheading both current and future growth in Canada's dynamic business landscape.

Judged by an independent panel of five on client dedication, innovation, business growth, longevity, online reputation, customer feedback, and business performance; W3 Intelligence Research Group Inc. has been recognized for always leading by the premise of quality and customer experience with our Social Media and Open Source Investigations.

With our capabilities have significantly evolved over the years, they continue to add value to the management of insurance claims that have triggered red flags due to potential insurance fraud.

"We are very pleased that our Social Media and Open Source Investigations have been recognized as a best-in-class solution within the private investigation sector" notes Frank Cutruzzola, President and Director of Cyber Investigations. "It is only because of the dedication of our team members across all departments that positions us to impact insurance fraud and intersecting crimes as we do".

W3 Intelligence Research Group Inc. has not only established itself nationally serving insurers across Canada but has made marked headway into the US market as a leading provider of Cyber Investigations.
