

Blackpool's RKMS Group becomes Patrons of The Big Red Night Bus

Blackpool, Lancashire Mar 6, 2023 ([IssueWire.com](https://www.issuewire.com)) - RKMS Group have become a patron of the Big Red Night Bus, a mobile emergency unit for helping the homeless and the most in need across the Fylde Coast. In the RKMS Group's 22-year history, firmly entrenched within the local community they have supported many good causes across the Fylde Coast. None more so than the Big Red Night Bus.

[John Keen](#), Founder and CEO of [RKMS Group](#) says, "we were excited to be involved with the BRNB project, who saw the vision for such a unique and inspiring project. I felt that it is a very worthwhile cause and so did my team."

The Big Red Night Bus started as a pioneering project that, through the will of co-founders Abbie and Mark Butcher who together with their charity Amazing Graze got traction within the community, together with the support of many local and national companies not only RKMS Group.

This has resulted in the Big Red Night Bus becoming a reality, through the grit and perseverance of the whole BRNB committee and the great volunteers who give up their time, to provide a clean and most importantly safe space for people that are most at need.
