

## Snoop Dogg Producer and P-Funk Allstar Quazedelic New Album Summer Release 2023

Release Scheduled for Summer 2023

Youngstown, Ohio Mar 20, 2023 ([Issuewire.com](http://Issuewire.com)) - Quazedelic Announces Long-Awaited Album entitled "I Am" Featuring Collaborations with Music Legends

Renowned producer and artist Quazedelic, known for his work with industry heavyweights like Snoop Dogg, Sir Mix-a-Lot, and George Clinton and Parliament-Funkadelic, is set to release his much-

anticipated album after three years in the making. The album, a seamless blend of Funk and Hip-Hop, delves into a variety of themes ranging from current world events and self-awareness to party anthems that are guaranteed to make listeners groove.

The upcoming album features notable collaborations with icons such as George Clinton and Snoop Dogg on the track "We are One," showcasing the unity and connection between people in a turbulent world. The introspective hit "Fading" highlights Quazedelic's struggle with self-doubt and procrastination, and his determination to overcome these challenges. The song also touches on end times and apocalyptic events, such as the Mothership's arrival during the Rapture and the world being hit by a comet.

Quazedelic's album also addresses contemporary issues, with his P-Funk esque' jam "WhiteNoise" which touches on the Ohio train derailment in East Palestine and the motives behind the controlled burn and the uncanny coincidence to the Netflix film "White noise" which was released a couple months before the train derailment and explosion which released toxic chemicals into the rural town of Ohio, just 25 miles from Quaze's Recording Studio located in Austintown. Fans can look forward to the upbeat party track, "Big Ole' But," which pays homage to LL Cool J's 1989 hit of the same name and incorporates elements of P-Funk and Digital Underground, as a nod to the late Shock G.

Scheduled for release in the summer of 2023, this album is Quazedelic's most ambitious and funkier fusion of Hip-Hop, R&B, and Funk to date. Featuring guest producers C-Fly, Aaron EVO, and Mofak from France, the record promises a rich and diverse sonic experience. The album will be independently released on Quazedelic's own label, 3rd Door Records, now based in the Funk capital state of Ohio.

With a stellar lineup of collaborators and an unparalleled commitment to musical innovation, Quazedelic's forthcoming album is poised to make a significant impact on the music scene, solidifying his status as a creative force in the industry.

About Quazedelic:

Quazedelic is an accomplished producer and artist with an extensive history of working alongside some of the music industry's biggest names. His unique blend of Funk, Hip-Hop, and R&B has garnered him a dedicated fan base and critical acclaim. Through his independent label, 3rd Door Records/5500 Music Group, in which He is in partnership with Youngstown Ohio native Tracy Bowser, Quazedelic continues to push the boundaries of music and create unforgettable experiences for his listeners.
