

The Mormon Tea Company Launches New Line of Herbal Tea

Brigham City, Utah Mar 8, 2023 ([IssueWire.com](https://www.issuewire.com)) - The Mormon Tea Company has announced the launch of its new line of herbal tea made from the *Ephedra nevadensis* plant. Mormon Tea, as it is commonly known, has been used by Native Americans for centuries and was adopted by the Mormon community as a caffeine-free alternative to coffee and traditional tea.

Mormon Tea Company founder Viola Henriksson shared her enthusiasm for the product, saying, "We are excited to share the benefits of Mormon Tea with the wider community. Our goal is to provide a natural and healthy alternative to traditional teas and coffee. Plus, the history and culture surrounding this plant make it a unique and interesting beverage option."

Ephedra nevadensis is a plant native to the American Southwest and is known for its medicinal properties. It has been traditionally used by Native American tribes to treat a range of ailments, including colds, fever, headaches, and stomach disorders. It is also known for its stimulant properties, making it a popular choice for those looking for an energy boost without caffeine.

The Mormon Tea Company sources its *Ephedra nevadensis* plants from the wild, where they are

sustainably harvested. The dried branches are then boiled in water to create a fragrant and flavorful tea that can be enjoyed hot or cold.

Mormon Tea Company's tea is available in both dry and tincture forms, allowing customers to choose the method of consumption that works best for them. The company is committed to quality and sustainability, and all of its products are made with the utmost care and attention to detail.

Photo Caption: Mormon Tea Harvest - This is the best time of year to harvest ephedra. The plants are preparing to bloom, the color is deep green, potency is high and the little spikes are minimal. We went into the desert and picked a large quantity of Mormon tea to be sold in dry and tincture forms.
