

Ann Gaffka, MSN, APRN-C, a Certified Advanced Practice Registered Nurse with Breeze Aesthetics

Get to know Certified Advanced Practice Registered Nurse, Ann Gaffka, who serves patients in Port Orange, Florida.

New York City, New York Apr 14, 2023 ([IssueWire.com](https://www.issuewire.com)) - Ann, a certified advanced practice registered nurse, has been practicing internal medicine in Volusia County for over 20 years. She branched out into aesthetics in 2019, opening Breeze Aesthetics in Port Orange, Florida to help her patients look as good on the outside as they feel on the inside.

Volusia County's premier Med Spa and leading destination for the most advanced anti-aging treatments, Breeze Aesthetics offers the latest aesthetic technologies, including state-of-the-art laser and radiofrequency treatments that turn back the clock on aging skin – without surgery and with little to no downtime.

The Lutronic LaseMD laser and Genius radiofrequency devices provide the “total solution” to repair, resurface & rejuvenate skin on a deep cellular level. These procedures tighten skin, reduce wrinkles, and eliminate imperfections for a youthful, flawless complexion. And, in addition to the newest generation of dermal fillers and wrinkle relaxers – including Versa and Jeuveau – Breeze Aesthetics offers revolutionary KeraLase laser hair loss treatments for men and women, as well as body contouring and cellulite reduction with innovative NuEra Tight radiofrequency technology – for firmer, smoother, younger looking skin almost anywhere on the body.

All treatments and injections at Breeze Aesthetics are administered by Ann. She has completed extensive training in cosmetic injections, laser treatments, radiofrequency body sculpting, and RF microneedling. She also has certification as a laser safety officer.

Continuously advancing her efforts, she is a proud member of the American Association of Nurse Practitioners and AmSpa, an organization working to bring excellence to medical aesthetics.

Comfort and results are of utmost importance to Ann and – as with her entire career – she is working for the patients' best outcomes.

A Certified Advanced Practice Registered Nurse (APRN-C) is a nurse who holds certification and has obtained at least a master's degree in nursing. APRNs may work across various healthcare settings, including hospitals, ambulatory clinics, or long-term care facilities. They provide medical support and preventative care to patients, along with additional responsibilities of coordinating patient care and using specialized knowledge to manage complex patient conditions. APRNs can diagnose and treat as well as order and interpret tests and prescribe medications.
