

## DSA Doors Offers Hurricane-Ready Wood Doors for Coastal Homes

DSA Doors offers DPS +/- 70 psf Mahogany doors, including Ashland Multipoint Locking System keeps coastal doors more secure.

**Raleigh, North Carolina Apr 27, 2023 ([Issuewire.com](https://www.issuewire.com))** - Coastal home residents can source high-quality [hurricane-impact front doors](#) from DSA Doors. DSA Doors offers some of the only Miami-Dade NOA-Certified wood doors, which are proven to provide superior protection for your home during turbulent weather conditions such as storms and hurricanes. The company has undergone rigorous

testing to ensure its reliability, meeting industry-leading standards like Miami-Dade NOA, DP-50, and FL Code.

The DSA team went above and beyond by meticulously testing and engineering the [Port Collection](#). This collection is designed to uphold DSA's distinctive quality and safeguard your coastal home. Homeowners can choose from over one hundred door styles with additional customizations like trim, pre-finish, and hardware. Custom glass options, such as turtle tint, are also available by special order. DSA's Port Collection of hurricane impact-resistant front doors offers a Design Pressure Rating of +/- 70 psf. In addition, these doors can withstand large, wind-borne debris (TAS 201: Large Missile Impact) and offer Air & Water Infiltration, Positive & Negative Design Loads, and superior Forced Entry Resistance.

The Ashland Multipoint Locking System protects these wood doors. The locking system includes an active and passive lock, 1" shoot bolts for higher security, and durable, corrosion-resistant stainless steel. All these features support seamless integration to coastal homes for everyday needs and higher durability against extreme weather conditions in HVHZ (High-Velocity Hurricane Zones).

Master artisans engineer and craft hurricane-impact doors with premium mahogany in Raleigh, NC. DSA Doors prides itself in having a reliable network of builders, designers, architects, and professional dealers that all help coastal homeowners discover the benefits of hurricane impact-resistant wooden doors.

DSA Doors has been operating for over forty years and continues to amaze and delight with its 50,000+ ft. solar-powered production facility in Raleigh. In addition, the company emphasizes sustainable and responsible sourcing of wood for its wooden door products. Today, DSA Doors continues to innovate and delight homeowners by creating new collections and improving their design for current and future customers.
