

FACIO new release(Face recognition application)

Melbourne, Victoria Apr 3, 2023 ([Issuewire.com](https://www.issuewire.com)) - Ayonix Launches FACIO Ver1.7: The Cutting-Edge Face Recognition Application

Melbourne, Australia - Ayonix, a leading provider of advanced facial recognition technologies, has launched FACIO Ver1.7, its latest innovation in the field of biometric identification. This powerful application boasts state-of-the-art features that offer unrivaled accuracy and speed, making it the ideal choice for a wide range of applications.

FACIO Ver1.7 is the result of years of research and development by Ayonix's team of experts in the field of computer vision and artificial intelligence. With its advanced algorithms, the application can recognize faces with unprecedented precision, even under challenging conditions such as low light or occlusion.

The application's user-friendly interface makes it easy to use for anyone, regardless of their technical expertise. FACIO Ver1.7 can be seamlessly integrated with existing security systems, making it the perfect solution for law enforcement agencies, border control, airports, and other high-security environments.

Some of the key features of FACIO Ver1.7 include:

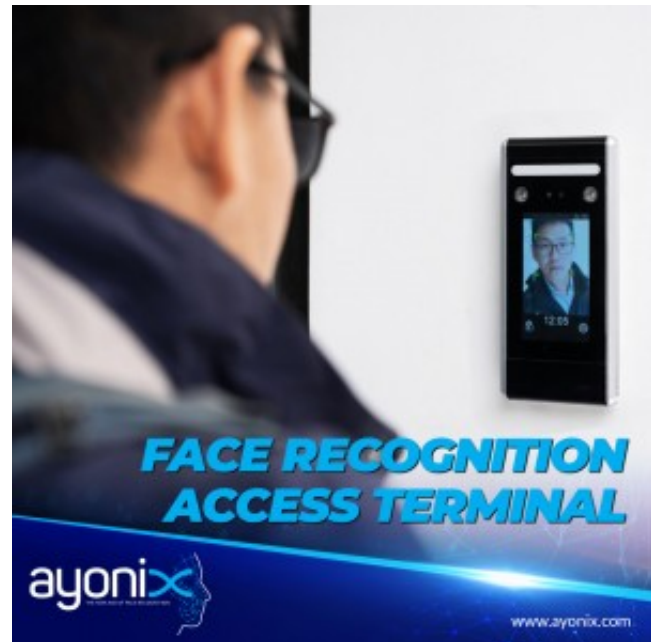

- Real-time face recognition with high accuracy and speed
- Advanced face detection and tracking technology
- Support for multiple cameras and high-resolution images
- Compatibility with a wide range of operating systems and devices
- Customizable to meet specific user needs

"We are thrilled to introduce FACIO Ver1.7, our latest and most advanced facial recognition application yet," said Dr. SADI VURAL, CEO of Ayonix. "With its cutting-edge features and unparalleled accuracy, we believe FACIO Ver1.7 will revolutionize the way organizations approach biometric identification."

To learn more about FACIO Ver1.7 and how it can benefit your organization, please visit the Ayonix website or contact their sales team at sales@ayonix.com.

About Ayonix: Ayonix is a Tokyo-based company that specializes in the development of advanced facial recognition technologies. With a team of world-class experts in computer vision and artificial intelligence, Ayonix is at the forefront of innovation in the field of biometric identification.
