Attendance

Payroll & Compliance

Performance Analysis

Application Tracking System

Gurgaon, Haryana Apr 11, 2023 ([IssueWire.com](https://www.IssueWire.com)) - NYGGS Automation Suite, a fast-growing cloud-based software development company in India, has announced the launch of its advanced Human Resource Management Software (HRMS) designed to automate the human resource

department's repetitive tasks for small and medium businesses.

The NYGGS HRMS Software is an effective solution that enables businesses to automate and manage their HR processes easily. The software offers several features that support businesses to do more than just administrative tasks. This cloud-based HRMS manages the company's employee data, attendance, payroll, and performance.

Some of the key features of the NYGGS HRMS modules include the following:

- **Core HR:** This module includes the core function of HR processes, such as employee profiling, document upload & sharing, automated workflow approval, asset management, and essential notification & alerts.
- **Attendance Management:** The software simplifies attendance management by allowing employees to mark their attendance and providing managers with real-time attendance data.
- **Payroll Management:** The software automates the payroll process, including tax calculations, reimbursements, and salary disbursement, ensuring accurate and timely payments.
- **Performance Management:** The software streamlines performance management by enabling managers to set goals, track employee performance, and conduct performance appraisals.
- **Recruitment Management:** The software can integrate with Applicant Tracking System (ATS) to shortlist the right candidate for a job post powered by AI. It saves time & ease when scheduling the interview.
- **Employee Self-Service:** The software allows employees to access their personal information, update their details, and view their attendance and leave records through the web or mobile app.

Some of the features that set NYGGS HRMS software apart from the competition:

- **Aadhar Card Verification:** Verify the Aadhar Card information of any employee and new joiners.
- **Asset Management:** Allocate and track assets (laptop, printer, etc.) to any new joiners.
- **Exit Management:** For a smooth offboarding process so that HR can say "No Dues" & "All Cleared" easily.
- **Request Workflow:** Allows employees to request leaves, vacations, attendance regularisation (AR), resignation, and more from NYGGS's self-service portal.
- **Approval/Reject Requests:** HR can make data-driven approval/rejection decisions on employee requests based on their track records.
- **Multiple Device Login:** Employees can log in on various devices with the manager's permission.
- **Integrated Latest Security:** Incorporates the latest firewall & SSL encryption methods that secure and protect your employee data from unauthorised access.
- **Customisable & Scalable Software:** HRMS is a highly customisable and scalable software solution that fits most industries' needs.
- **Improved Accuracy:** The software eliminates errors and ensures accurate data, improving compliance and reducing risks.
- **Employee Site Transfer Report:** With detailed "approved by" and "transferred by" information to keep everyone informed.
- **Better Employee Engagement:** The software enables employees to access their information, leading to greater transparency and engagement.

"We are excited to launch our advanced hire-to-retain HRMS software that offers businesses a comprehensive solution to automate their HR processes," said **Vaibhav Shukla, Marketing Head of**

NYGGS Automation Suite. *"This HR System is designed to help businesses manage their human resources more effectively and efficiently, enabling them to focus on their core business operations."*
