Phantasm Announces the New Album "We Are Ghosts Trapped Inside of a Computer"

Phantasm is excited to announce the release of her debut album "We Are Ghosts Trapped Inside of a

Computer” available everywhere on Friday, May 5.

“We Are Ghosts Trapped Inside of a Computer” is a unique-sounding electropop/synthpop album, completely self-written and co-produced with the Leeds artist “Kahal”. Many have compared the genre and production of the tracklist with artists such as Grimes, Crystal Castles, Crim3s, and SALEM. 5 of the songs from the album have already been released as singles, including “EATMYFEELINGS”, “white corpse on the bathroom floor”, “ONES AND ZEROS”, “house of cards”, and “fill my body with flowers”.

Phantasm has made 2 radio appearances; recently airing on Mexico’s radio station “Frecuencia Millenial”, and Manchester’s “Shock Radio”.

“I turned on the track for a second time - you have a wonderful voice and music” - Vladimir from the netlabel “Russian Dark Community” describing Phantasm’s single “ONES AND ZEROS”
