San Jose, California May 30, 2023 ([Issuewire.com](http://Issuewire.com)) - 24Seven Commerce, a leading technology solutions provider, is proud to announce that it has become a verified [Walmart Integration](#) Provider in the USA. This certification highlights the company's commitment to providing retailers with the most

innovative and effective e-commerce solutions.

Walmart is one of the largest retailers in the world, with a strong presence in the United States. Walmart's popularity can be attributed to its commitment to providing customers with high-quality products at affordable prices. The company has more than ten thousand stores in over 27 countries, making it a household name.

Compared to other marketplaces, Walmart has a unique advantage in terms of its customer base. Walmart customers are typically looking for everyday products at competitive prices, and the company's marketplace reflects this. Walmart has a reputation for being a reliable and trustworthy retailer, which has helped to build customer loyalty and trust.

Retailers should sell on Walmart because of its massive customer base and reputation. Walmart has more than 140 million unique visitors to its website every month, making it one of the most popular e-commerce platforms in the United States. This high volume of traffic presents a huge opportunity for retailers to reach new customers and grow their businesses.

Walmart also offers competitive fees, with lower referral fees than some other marketplaces. This means that retailers can maximize their profits while still offering competitive prices to their customers. Walmart's customer-centric approach means that retailers can also benefit from increased visibility, as the platform promotes products that offer the best value and customer satisfaction.

As a verified Walmart Integration Provider, 24Seven Commerce's flagship product OctopusBridge can seamlessly integrate any of the supported POS systems with the Walmart marketplace free of cost. This integration ensures that retailers can manage their inventory, orders, and pricing from a single platform, making it easier to streamline their e-commerce operations.

Many retailers are already using 24Seven's Walmart integration, and have seen a significant increase in their sales and revenue. This is because OctopusBridge automates many of the time-consuming tasks associated with e-commerce, allowing retailers to focus on growing their businesses.

"We are thrilled to be a verified Walmart Integration Provider," said the CEO of 24Seven Commerce. "Walmart is a fantastic platform for retailers to sell on, and our integration with OctopusBridge makes it even easier for them to manage their e-commerce operations. We are proud to help our customers succeed at Walmart, and we look forward to continuing to provide innovative solutions to retailers around the world."

The certification as a verified Walmart Integration Provider is a testament to 24Seven Commerce's commitment to providing retailers with the most innovative and effective e-commerce solutions. With OctopusBridge, retailers can seamlessly integrate their POS systems with Walmart, streamlining their e-commerce operations and maximizing their sales potential.
