**Castledawson, London May 1, 2023 ([IssueWire.com](http://IssueWire.com))** - Allied Academies would like to welcome you all with great honour and influence on the "28th International Conference on Nanotechnology and Nanomedicine", which will be held on Aug 17-19, 2023, in Bangkok, Thailand.

This year's innovative theme is "Microscopic to Nanoscale Advances in the Real World," which means it

will provide new ideas, techniques, strategies, and advancements that will genuinely impact the way you collaborate and thus the organisation that holds prominent experts in the field of Nanotechnology.

Nanotechnology conferences 2023 is the stage for well-known researchers, scientists, university educators, college analysts, and understudies, with addresses, oral and book introductions, displays, and much more learning. Share your research association and obtain name confirmation and the certificate marked by our prestigious world-elegance checking out the advisory organisation.

Our event will offer a continuously impressive line-up of keynote speakers, delighting colleagues, and connecting with substance. This is a great opportunity for delegates from colleges and institutes to meet with specialists. Participants who wish to collaborate may do so by combining the gathering with their conference partners.

Come network, socialise, and collaborate with professionals at Nanotechnology conferences 2023.

The following kinds of involvement are available to speakers:

**Presentation of the keynote:** The most well-known speaker will be selected as the keynote speaker and will deliver a one-hour speech at the event.

**Presentation by the speaker:** An oral session is made up of a series of individual talks. Each oral presentation will last 30 minutes and will be followed by a 5-minute questionnaire.

**Presentation via video:** If you are unable to attend the webinar but still want your paper to be presented and written, we offer video presentations. Following your presentation, you will be given a certificate of acknowledgment, as well as access to the digital book of abstracts.

**Workshop presentation:** Workshop lectures, which can last up to more than 60 minutes, are engaging talks about skills.

**E-poster:** It will be presented on a single page to explore the research work with fellow researchers
