Get to know Family Physician Dr. Nicole E. Bogdanovich, who serves patients in Illinois.

New York City, New York May 12, 2023 ([Issuewire.com](https://www.issuewire.com)) - Dr. Bogdanovich is a dedicated family physician within the Department of Family Medicine at NorthShore Medical Group - Gurnee in Illinois.

At NorthShore, the Department of Family Medicine offers many acute and chronic care services to family members of all ages, from newborns to geriatric patients. Care is centered on family and the

physicians work in partnership with each patient to maintain wellness through reinforcing healthy habits, patient education, and appropriate screenings and immunizations.

Family medicine physicians get to know patients and their family members on a personal level. This long-term relationship is built on trust and respect; because of this strong tie, they can tailor care and treatment plans to each patient. Having such a close relationship lets the team better predict, manage and diagnose potential health concerns and issues such as diabetes, hypertension, cardiovascular issues, obesity, and others.

Throughout her academic career, Dr. Bogdanovich graduated with her medical degree from the Ross University School of Medicine in 2016. She then went on to perform her residency in family medicine at the University of Chicago - NorthShore in 2020.

Dedicated to clinical excellence, she is board-certified in family medicine by the American Board of Family Medicine (ABFM). The ABFM is a non-profit, independent medical association of American physicians who practice family medicine and its sub-specialties.

Through the American Heart Association, Dr. Bogdanovich holds certifications in Advanced Cardiac Life Support (ACLS), Basic Life Support (BLS), and Pediatric Advanced Life Support (PALS).

Family medicine is a medical specialty devoted to comprehensive health care for people of all ages. The specialist is called a family physician or family doctor. A family physician is often the first person a patient sees when seeking healthcare services. They examine and treat patients with a wide range of conditions and refer those with severe ailments to a specialist or appropriate facility.
