

Nonprofit CRM Software Built on Microsoft Dynamics Now Available for Streamlined Donor Management

The screenshot displays the 'Blood Donation for Children' project page in the CRM software. The page is titled 'Blood Donation for Children - Unsaved' and is categorized as a 'Project-NPO'. It features a navigation menu with 'General', 'Grant Receives', 'Donations', and 'Related' options. The main content is divided into two columns. The left column, 'General Information', lists project details: Project Name (Blood Donation for Children), Project Budget (\$10,000.00), Plan Start Date (12/10/2022), Project Duration (5), Project Summary (Donating blood to NGOs), Program Name (Voluntary Blood Donation), Project Manager (Kevin Martin), Plan End Date (12/15/2022), and Project Controller (PC). The right column contains two summary cards. The top card, 'Program Voluntary Blood Donation', lists Program Name (Voluntary Blood Donation), Program Type (Food Grants for Nonprofits Program), and Program Budget (\$30,000.00). The bottom card, 'Project Manager Kevin Martin', lists First Name (Kevin), Email (kevin@adatum.com), and Mobile Phone (425-555-0161).

Chicago, Illinois May 4, 2023 ([Issuewire.com](https://www.issuewire.com)) - Beyond Key, a global software solutions provider, is pleased to announce the launch of its new CRM software, Right Cause which is built on the Microsoft Dynamics 365 Platform. The software offers a suite of advanced features designed to streamline donor management and fundraising efforts for nonprofit organizations of all sizes.

The Right Cause Nonprofit solution is a suite of various modules that allows nonprofits to track interactions with donors and other supporters, ensuring personalized communication and engagement. With a variety of advanced features, the fundraising CRM offers nonprofits a complete fundraising management solution. Key features of the software include:

- **Donor management:** Track donor information and interactions, ensuring personalized communication and engagement.
- **Donation management:** Keep track of donations, manage customized receipting and acknowledgment, and generate reports on fundraising progress.
- **Event management:** Plan and manage events, including registration and ticketing, and keep track of attendees and donations.
- **Volunteer management:** Streamline volunteer management by tracking participation and hours, ensuring proper recognition and engagement.

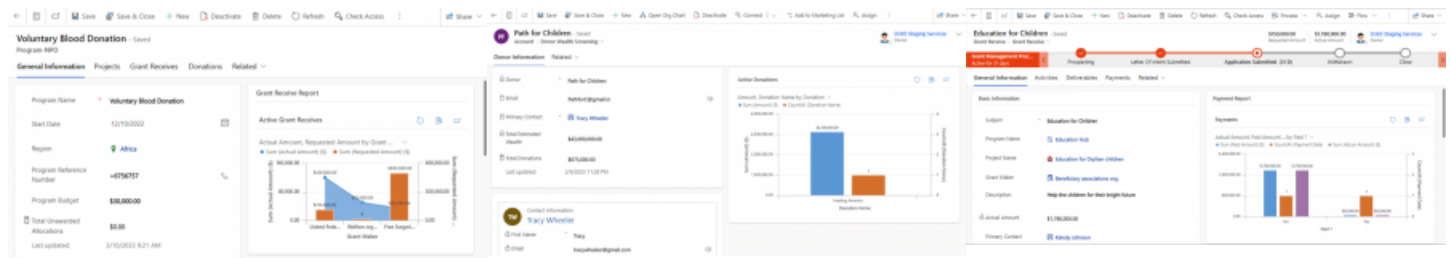

Our new fundraising CRM is a powerful tool for nonprofits looking to maximize their donations. With a variety of features designed specifically for fundraising management, nonprofits can streamline their efforts and focus on their core mission. By leveraging the power of Microsoft Dynamics, Beyond Key is able to offer a suite of advanced features designed specifically for the unique needs of nonprofit

organizations."

The Right Cause nonprofit CRM software built on Microsoft Dynamics is now available to all interested organizations. For more information or to schedule a demo, please visit www.rightcause.net
