

## **Stephen L. Farrow, MD, Internist, Endocrinologist, Geriatrician with the National Diabetes & Obesity Research Institute**

Get to know Internist, Endocrinologist, and Geriatrician Dr. Stephen L. Farrow, who serves patients in Biloxi, Mississippi.

**New York City, New York May 19, 2023 ([IssueWire.com](http://IssueWire.com))** - Dr. Farrow has over three decades of federal and academic experience as an internist, endocrinologist, and geriatrician.

Currently, he is the Executive Director of the National Diabetes & Obesity Research Institute in Biloxi, Mississippi. He is also a staff endocrinologist (volunteer) with Gulf Coast Veterans Health Care System.

His expertise includes diabetes and weight management clinical consultation, research (basic, clinical and industrial clinical), health institution performance consultation, health professionals education, and community health education.

A Wayne Health affiliate, Dr. Farrow serves as a Clinical Professor of Medicine and Endocrinology at the Wayne State University School of Medicine.

His hospital affiliations include Children's Hospital of Michigan, Detroit Receiving Hospital, Harper Hospital, Huron Valley-Sinai Hospital, Hutzel Women's Hospital, Karmanos Cancer Center, Rehabilitation Institute of Michigan, and Sinai-Grace Hospital.

Back in the early days of his academic career, Dr. Farrow graduated with his Bachelor of Science degree in Biology from Wayne State University in 1981. He then went on to earn his medical degree from the Wayne State University School of Medicine in 1985.

Furthering his training, he performed his internship in internal medicine at the University of Michigan in 1986, his residency in internal medicine at the Wayne State University School of Medicine in 1988, his fellowship in endocrinology and metabolism at the Wayne State University School of Medicine in 1990.

Years later, in 2014, Dr. Farrow earned his Master of Business Administration degree from Americas/Global (Vanderbilt-Owen (United States); Simon Fraser-Beedie (California); Instituto Tecnológico Autónomo de México (Mexico); Universidade de São Paulo-Fundação Instituto de Administração (Brazil)) (Team Winner, International Corporate-Executive Entrepreneur Team Competition).

His research and quality improvement experience includes human performance research with the Navy's Fighter Weapons School and Special Warfare divisions, basic and clinical civilian studies in hypertension and diabetes, and funded work on clinical decision support and enhanced facility-clinician-patient communication.

Dedicated to clinical excellence, Dr. Farrow is board-certified in internal medicine by the American Board of Internal Medicine (ABIM). The ABIM is a physician-led, non-profit, independent evaluation organization driven by doctors who want to achieve higher standards for better care in a rapidly changing world.

Internal medicine is the medical specialty dealing with the prevention, diagnosis, and treatment of adult diseases. Physicians specializing in internal medicine are called internists. They manage and prevent common and complex diseases by providing comprehensive care and promoting overall well-being.

Endocrinology is a branch of biology and medicine dealing with the endocrine system, its diseases, and its specific secretions known as hormones. Endocrinologists have the training to diagnose and treat hormone imbalances and problems by helping to restore the normal balance of hormones in the body. The common diseases and disorders of the endocrine system that endocrinologists deal with include diabetes mellitus, as well as adrenal, pituitary, and thyroid disorders, among others.

Geriatrics, or geriatric medicine, is a specialty that focuses on the health care of elderly people. It aims to promote health by preventing and treating diseases and disabilities in older adults. A geriatrician is a health care provider who focuses on patient well-being and independent functioning. These allopathic or osteopathic health care providers are specifically trained to evaluate and manage the unique health care needs and special treatment requirements of older people.

Among his community/volunteer service and collaboration, Dr. Farrow has been involved in the Walk for the Poor (fundraiser since 2017) of St. Vincent de Paul (Our Lady of Fatima).
