

Ashley Alfred Wool-Smith, DC, L.Ac., a Chiropractor in Private Practice

Get to know Chiropractor Dr. Ashley Alfred Wool-Smith, who serves patients in Tarzana, California.

New York City, New York Jun 13, 2023 ([IssueWire.com](https://www.issuewire.com)) - A committed chiropractor and acupuncturist, Dr. Wool-Smith sees patients at his private practice in Tarzana, California. He has a comprehensive understanding of multiple specialties such as orthopedics, internal medicine, occupational medicine, and Eastern medicine, making him an ideal and conscientious evaluator for medical legal issues. His ability to integrate multiple specialties enables him to provide thorough and well-informed assessments.

Demonstrating his expertise and dedication to the field, he has served as a Qualified Medical Examiner in Southern California since 2014. Additionally, he has been actively involved in writing SIBTF (Subsequent Injury Benefits Trust Fund) reports since 2010, contributing to the understanding and management of disability following workplace injuries.

From his early academic years at Queen's University in Kingston, Ontario, Canada, to his specialized training in chiropractic and acupuncture at the Southern California University of Health Sciences, Dr. Wool-Smith has continuously honed his skills and expanded his knowledge through collaborations with top physicians in the Los Angeles area.

Beyond his clinical work, he serves as the Principal of SoCal NeuroRehab MSO, Inc, a role he has held

since September 2022. In this position, he has founded and developed a multidisciplinary rehabilitation program specifically tailored to traumatic brain injury rehabilitation on third-party injury cases. Collaborating with the esteemed Sports Academy Integrative Medicine facility in Thousand Oaks, California, he has established a program that integrates various approaches to optimize patient recovery and well-being.

Furthermore, Dr. Wool-Smith holds the position of Director of Managed Care at Mission Community Hospital, overseeing managed care services and acting as a case management advisor, contributing to the smooth operation and efficient delivery of healthcare services within the hospital.

Chiropractic is a form of alternative medicine that mainly deals with the diagnosis and treatment of mechanical disorders of the musculoskeletal system, especially the spine. A chiropractor uses spinal adjustments, manipulation, and other techniques to manage patients' health concerns, including neck pain, back pain, headaches, vertigo and a long list of other ailments and conditions. They aim to improve patients' functionality and quality of life by properly aligning the body's musculoskeletal structure and enabling the body to heal itself naturally, without the use of medication or surgery.
