

Bitwise Achieves AWS Service Delivery Designation for AWS Glue

Chicago, Illinois Jun 20, 2023 ([IssueWire.com](https://www.issuewire.com)) - Bitwise, a technology consulting and services company, announces the achievement of the Amazon Web Service (AWS) Service Delivery designation for AWS Glue, recognizing that Bitwise follows best practices and has proven success delivering AWS services to end customers.

Achieving the AWS Service Delivery designation differentiates Bitwise as an AWS Partner Network (APN) member that provides specialized demonstrated technical proficiency and proven customer success in delivering AWS Glue. To receive the designation, APN Partners must possess deep AWS experience and deliver solutions seamlessly on AWS.

“Bitwise is proud to receive the AWS Service Delivery designation for AWS Glue,” said Ankur Gupta, Bitwise Inc. CEO. “This designation recognizes our AWS expertise and experience in helping companies successfully build modern data architectures with AWS services by developing new data pipelines or migrating legacy ETL to AWS Glue.”

AWS enables scalable, flexible, and cost-effective solutions from startups to global enterprises. To support the seamless integration and deployment of these solutions, AWS established the [AWS Service Delivery Program](#) to help customers identify APN Partners with deep experience in delivering specific AWS services.

With its Data Modernization practice, Bitwise uses the right combination of proprietary automation tools and migration experience to accelerate the conversion of any ETL such as Informatica, DataStage, SSIS, or Ab Initio to AWS Glue for programmatical data processing in PySpark or to AWS Glue Studio for easy to use drag-and-drop interface, solving the trickiest part of modernization for customers and providing an optimal data architecture on AWS.

To underscore the value that Bitwise delivers, one customer expressed thoughts on the Bitwise team’s hard work and commitment to their initiative to migrate on-premises ETL to AWS Glue by saying “It gives us great satisfaction to have a team that is both enthusiastic and devoted, and their contributions were essential to the project's accomplishment.”

Learn how [Risk-Free ETL Migration to AWS Glue](#) can help data leaders accelerate data modernization to better meet the demands of AI and advanced analytics that modern business users expect.

About Bitwise

Bitwise provides advanced technology solutions that leverage data to enable business insights. By deploying our breakthrough technology innovations, we help our global clients maximize their competitive advantage. We are the industry's most experienced and dedicated team of data professionals, focusing on Data Warehousing, Business Intelligence, Analytics, Big Data, Cloud Computing, Test Engineering, and Web/Mobile Application Development. We optimize value for our clients through our global delivery model and with our proprietary technology tools that reduce the time, complexity, and cost of data initiatives. Together, our people and technology provide the insights clients need to continue to lead their fields.

Bitwise, founded in 1996, has offices in Chicago, London, Pune, and Indore. For more information, visit Bitwise at <https://www.bitwiseglobal.com/en-us/>.
