

## Contata Solutions Achieves a Silver Microsoft Partner Certification

Contata Solutions announced today that it has attained Silver Certified Partner status in the Microsoft Partner Program as a Data Analytics Specialist.

**Minneapolis, Minnesota Jun 19, 2023 ([IssueWire.com](https://www.issuewire.com))** - Data Analytics Specialist Certification Creates Synergistic Value For Microsoft Clients.

Contata Solutions announced today that it has attained Silver Certified Partner status in the Microsoft Partner Program as a [Data Analytics Specialist](#). With fewer than 5% of Microsoft Partners ever achieving certification across different competencies, this distinguishes Contata as a premier specialist in the fast growing field of Data Analytics.

Contata has been helping customers turn data into actionable insights using best practices in business intelligence, big data, and advanced data analytics.

“We are very happy to announce this certification. It further reinforces our position as a Microsoft -centric organization focused on the fast-growing [data analytics solutions](#) space,” according to Ali Farnsworth, Vice President of Sales of Contata Solutions.

The certification process is by necessity challenging. It requires not only rigorous testing of concepts and practice of the Microsoft Certified Professionals but also positive client references showing projects completed, skills applied and updates at regular intervals.

Farnsworth adds, “The market is demanding expertise in Microsoft technologies, specifically around

data science. We want to be able to serve our clients in the best way possible, and that was part of how we formed our decision to unify on the Microsoft platform. Innovation is always a collaboration, in this case, a three-way partnership between Microsoft, our clients, and our custom solutions.”

About Contata Solutions:
