INFINITE QUALITY

Libertyville, Illinois Jul 12, 2023 (Issuewire.com) - [Compliance Group Inc](http://ComplianceGroup.com) (CG), a leader in providing Quality Excellence Staffing, Business Process Consulting, and Technology Solutions to the Life Sciences industry is excited to announce its upcoming webinar on "**Digital Agile CSA – What does GAMP5 Second Edition Say?**" on 24th July 2023 from 12:30 PM to 1:00 PM EST The webinar aims to provide industry professionals with valuable insights into the integration of Digital Agile CSA

methodologies and the latest updates outlined in GAMP5's Second Edition.

The webinar will feature expert speakers who are well-versed in the field of Digital Agile CSA and GAMP5 compliance. Attendees will have the opportunity to delve into the core concepts, best practices, and practical applications of Digital Agile CSA within the framework of GAMP5's guidelines.

Webinar Highlights:

Many organizations want to move faster and adopt an agile methodology for the delivery of IT projects but struggle with how to do so with validated systems. On the surface, agile seems to be opposed to the concept of validation and the implied need to create, review, and approve many deliverables. Using GAMP 5 Second Edition and supplemental materials, we will look at how to successfully transform from waterfall into a truly agile delivery method including validation. This On-Demand webinar will cover the

- Common roadblocks to implementing agile and validation overall
- Gain an understanding of how ALM tools can be used to ensure compliance and speed of delivery

Who should attend:

- Quality Manager / Leader
- Validation (CSV) Manager
- Compliance Manager/Business Operations
- VP Quality & Regulatory

Speakers: [Jonathan Meuzelaar](#), Director, Technology Solutions at Compliance Group Inc and

[Stephen J Cook](#), VP – Validation Quality & Compliance at Compliance Group Inc.
