“We are master watchmakers and master jewelers with over 40 years of experience,” says Neville Thompson, founder of Fashion Bests. “We specialize in repairing high-grade watches and creating unique pieces that stand out from the crowd.”

This season, it's all about statement pieces that make a bold statement. Think oversized timepieces or statement earrings that will instantly elevate any look. If you're looking for something more subtle, consider a sleek leather watch band or an elegant necklace as your go-to accessory for every day wear.

For those who love color, bright hues are definitely having a moment right now. Choose vibrant shades like turquoise or neon yellow for an eye-catching addition to your outfit. Or if you want something more understated, muted tones such as pastels and earthy colors are also popular choices this season.

When it comes to metals, gold is still king but silver is making a comeback too! Whether you prefer delicate rings or edgy bracelets, there's a style for everyone in silver this season. Don't forget about rose gold either - this pinkish hue is perfect if you want something unique yet timeless at the same time.

Finally, don't forget about texture when choosing your accessories! From chunky chains to beaded necklaces and smooth leather straps for watches - texture adds another dimension of interest to any look. So explore different materials and find one that fits your personal aesthetic perfectly!
