**Ahmedabad, Gujarat Jul 10, 2023 ([Issuewire.com](http://Issuewire.com))** - Gita Mediquip, a renowned hospital furniture manufacturer is proud to announce that its flagship product, Prana, has received approval from the United States Food and Drug Administration (US FDA). This is an important milestone for [Gita Mediquip](#) since it reaffirms the company's commitment to delivering cutting-edge solutions to the healthcare industry.

Once the products are available for use by the public, FDA monitors all the devices/equipment safety

guidelines and whether they comply with the standard guidelines. Prana, their most advanced [ICU bed](#), meets international quality patient care and safety standards. It is a motorized ICU bed with a single-touch cardiac chair position, considerate examination and transportation height, and an open structure for easy cleaning. Extra accessories include ultra-premium super soft 135MM and ME-002-100MM 40-density mattresses.

A spokesperson at Gita Mediquip stated, "We feel pride in this achievement. However, I would also like to mention that a lot of hard work goes behind manufacturing an ICU bed and all other medical equipment. From manufacturing to testing, powdering, and supplying, we ensure all our products meet safety standards and enhance patient safety. While FDA accreditation helps us build consumer trust and credibility, it puts patient safety at the core."

He further stated that the FDA approval also enables us to export our ICU bed to the USA; however, they have yet to decide whether to ship it to the US. He also said that as a renowned [hospital bed supplier in India](#), getting US FDA approval cultivates trust among their existing consumers.

If you own a hospital or are a consultant looking for a trusted ICU bed manufacturer, feel free to contact Gita Mediquip. They have been making durable, modern, and safe hospital beds since 1987. So, once you know your budget and requirements, you can contact them to find the hospital beds or other hospital furniture that meets your needs.
