

## PocketMail Introduces the PocketMail Composer for eMail Access Anywhere, Anytime

**Santa Clara, California Jul 26, 2003 ([IssueWire.com](http://www.IssueWire.com))** - PocketMail Inc., a leading provider of simple and affordable e-mail solutions, is thrilled to announce the launch of its latest handheld email device, the PocketMail Composer. With the PocketMail Composer, users can now send and receive emails on the go, anytime and anywhere, without the need for a computer, phone jack, cradle, or cable.

Building on the success of its previous models that were compatible with landline or analog cellular phones, the new PocketMail Composer is now compatible with any type of mobile phone as well. This device offers unmatched convenience and versatility, making it an invaluable communication tool for travelers, boaters, truckers, and anyone on the move.

Key Features of the PocketMail Composer Include:

**Easy eMail Access:** Sending and receiving e-mails is as simple as dialing an 800 number, holding the device against the telephone handset, and pushing just one button. No complicated setups or technical knowledge required.

**Compact and Functional:** The battery-powered PocketMail Composer is designed to fit in your pocket and offers a complete keyboard. It also functions as an organizer, providing features like an address book, scheduling calendar, calculator, memo pad, and to-do list.

**Efficient EMail Management:** The Composer allows users to preview messages and organize them into folders, ensuring smooth and efficient email management.

Mr. Joe Katz, Vice President of Marketing at PocketMail Inc., expressed his excitement about the new product, stating, "For our largest and most mobile markets - Rivers, boaters, truckers, and travelers - the PocketMail service has proved to be an invaluable means of communication. The PocketMail Composer's compatibility with just about any phone anywhere makes it a reliable link to home, friends, and family from almost anyplace in the world."

PocketMail Service features an email address, unlimited emails, and an option to send faxes at a small additional charge. The service can also be seamlessly coordinated with most existing Internet e-mail accounts and corporate email systems, allowing users to read and reply to emails using the PocketMail Composer.

PocketMail Inc. has established a strong presence in multiple countries, including the USA, Canada, Australia, the UK, Singapore, and Hong Kong, with further expansion in the pipeline. The company serves a diverse customer base, ranging from retirees seeking an easy-to-use home email solution to mobile professionals in need of a reliable and truly global mobile email solution.

PocketMail Group Ltd is the unified global operator of PocketMail Service, is publicly listed on the Australian Stock Exchange under the symbol PKT and is committed to providing simple and affordable email anytime, anywhere.
