(CMMG), is thrilled to announce the release of the highly anticipated album, "The Missing Elements Vol. 1." Set to drop everywhere on August 4, this 17-song album promises to deliver an innovative and captivating musical experience to hip-hop enthusiasts worldwide.

"The Missing Elements Vol. 1" features a stellar lineup of rising artists and producers, including Jai Adams, Twonite, Monev 360, and many others. Leveraging RnB, gospel, jazz, and hip-hop influences, the album's sound showcases his skilled production abilities, making it an intriguing must-listen for music fans of all tastes.

Carl McCullough, also known as "Suthurn Faze," is no stranger to the music scene. Hailing from Little Rock, his passion for music production was ignited at the young age of 14 when he was introduced to multi-track recording on a Yamaha keyboard. Overcoming personal challenges and adversities, Carl's journey in the music industry has been one of tenacity and faithfulness.

"I am extremely excited about the Missing Elements release," commented the passionate Producer. "My past two compilations were instrumentals, and incorporating more vocals on this album lets us explore other areas."

As the founder of CMMG, Carl is dedicated to providing high-quality, creative, and affordable professional music services to artists, musicians, and industry professionals. His person-centered approach to music production ensures that each client's unique vision and passion are brought to life, in exceptional ways that help achieve their goals large and small.

Regarding the album's release, Suthurn Faze continued, stating, "The Missing Elements Vol. 1 is a project that represents the diverse nature of the music we are exploring and creating today. It's been an amazing experience collaborating with such talented artists and producers, and I can't wait for fans to get to check out the results of all of our hard work."

Fans have the opportunity to pre-order "The Missing Elements Vol. 1" on iTunes now.

The early response to the album from listeners has been completely positive.

Ryan H., recently said in a five-star review, "This album is simply what is missing in music today. No capping about cars money drugs, just amazing Hip hop instrumentals mixed with smooth RnB. Quite simply one of the best albums out that remind me of the golden 90's Era of music."

Carl "Suthurn Faze" McCullough's passion for music and his dedication to empowering aspiring artists is evident in his journey. From humble beginnings to establishing CMMG, he has remained true to his values of creativity, authenticity, and Manifesting his Purpose through Art.
