

## Dr. Nathan Schilaty, DC, PhD, Unveils Non-Surgical Spinal Decompression Research with the DRX9000

Revolutionizing Spinal Health: Dr. Nathan Schilaty, DC, PhD, to Present Groundbreaking Non-Surgical Spinal Decompression Research with the DRX9000 Spinal Decompression Machine at FCA National in Orlando FL.

**Tampa, Florida Aug 16, 2023 ([Issuewire.com](http://Issuewire.com))** - Dr. Nathan Schilaty, DC, PhD, from the esteemed University of South Florida will unveil case studies showcasing non-surgical spinal decompression, utilizing the cutting-edge DRX9000 spinal decompression machine. This presentation forms a key segment of a panel of speakers, focused on the innovative use of non-surgical spinal decompression, meant to educate providers. Joining him on this esteemed panel are renowned radiologist, Dr. Terry Yochum, DC, DACBR, FACCR, FICC, Mr. Saleem Musallam, CEO of Excite Medical, a Healthcare Systems Engineer Postgraduate at The Johns Hopkins University, and Dr. Michael Foreit, DO, a respected second-generation osteopathic physician.

The panel presentation is scheduled for Friday, August 18 at 3 pm as part of the FCA National conference held in Orlando, FL. Recognized as the largest global gathering for the chiropractic profession, the FCA National conference attracts chiropractors from around the world.

Dr. Schilaty's upcoming presentation represents a significant contribution to a series of anticipated

studies from the University of South Florida, showcasing the effectiveness of non-surgical spinal decompression cases, deemed suitable for surgical intervention, including conditions such as: herniated discs, bulging discs, and degenerative disc disease. The panel's highlight is a case study originating from the Neurosurgery department of the Tier 1 University, promising fresh insights into the future of non-surgical spinal decompression techniques. The presentation is to become a substantial moment of the FCA National Conference.

#### About the University of South Florida (USF)

USF stands as a Tier One University and holds the prestigious designation of a Preeminent State Research University by the State of Florida. This recognition, established in 2013 under the Florida Preeminence program, acknowledges high-achieving universities based on multiple performance metrics, including graduation rates, research expenditures, and patent awards. The University's attainment of Preeminence status, places it among only three universities in Florida with this distinction.

#### About Excite Medical

Excite Medical, an FDA registered medical device establishment, leads the non-surgical spinal decompression industry on a global scale. At the forefront of their offerings is the DRX9000 Spinal Decompression Machine, renowned as the world's most advanced non-surgical spinal decompression machine. In-use across more than 1,000 U.S. clinics and spanning over 45 countries, the DRX9000 delivers drug-free and non-surgical treatments for herniated discs, bulging discs, degenerative disc disease, and more.
