

## TelepathyTalk.org (<https://www.telepathytalk.org>) Created by a Telepath for Telepathic People

Why Does Telepathy Seem Like A Taboo to Talk About?

# TelepathyTalk.org

**San Diego, California Aug 2, 2023** ([IssueWire.com](https://www.issuewire.com)) - After secretly struggling with a telepathic ability for ten years, Niccole Lee created TelepathyTalk.org (<https://www.telepathytalk.org>) to share her struggles and knowledge gained about this sixth sense. While everyone has some telepathic ability, very few talk about it. Why is that? There is a range of telepathic abilities: from simple gut feelings to hearing conversations of people in other locations. We might be able to notice others' thoughts here and

there, and we can detect when someone is lying or cheating. So, are we crazy? I mean, it's part of our everyday reality! But not everyone is as super-sensitive as telepathics.

Here is the story of Niccole Lee, born with an empathic ability. She quickly picked up on negative vibrations from an early age and cried a lot as a baby. As a kid, she was very emotional and unconsciously picked up on her mother's negative emotions about suffering abuse. They didn't have the internet back then, so there were no resources for Niccole to try to understand why she was so sensitive. But later in life, while Niccole was in the US Navy, she traveled around, gained access to the emerging world wide web, and dived into her mental well-being. She got into trouble and suffered a period of "falling from grace." But she felt that it was a necessary learning lesson so that she could grow up to being more spiritual while growing more faithful in the spirit forces (she considers herself a New-Age Buddhist free-spirit).

Niccole still had more trials and tribulations to go through, but with every step of the way, she gained more insight, intuition, understanding, and even a little more telepathy ability. She feels that these abilities are something that can grow over time and with age. However, she could not shut it off once she became fully telepathic. She was angry with it at first and hated it. It almost felt like a curse. But eventually, she learned a form of tolerance to live a simple life with her telepathic ability.

The mission of TelepathyTalk.org (<https://www.telepathytalk.org>) is to be an informational online resource for those who have the telepathic ability, for those who want to understand the ability and to shed light on how this type of sixth sense can work in diverse ways.

If you would like to share a personal telepathic story with Niccole, please email:
