Chennai, Tamil Nadu Aug 24, 2023 (IssueWire.com) - The Japan International Science and Maths Olympiad (JISMO) 2023 is calling all math and science prodigies to compete for the chance to represent their countries on the world stage. The Olympiad will be held on 4th November at Anand Singapore International School in Chennai, India.

The JISMO is a rigorous competition that tests students' problem-solving skills in mathematics and science. Students from all over the world are eligible to participate, and the competition is open to students in grades 2-6.

The registration fee for the JISMO is INR 1,700. The deadline to register is 15th September 2023.

The JISMO is a great opportunity for students to test their skills against the best young minds in the world. It is also a chance for students to network with other students and professionals in the fields of mathematics and science.

For more information about the JISMO, please visit the website at <https://jismo-educational.org/>

About the Anand Singapore International School

The Anand Singapore International School is a private school in Chennai, India. The school offers a bilingual curriculum that combines the best of the Indian and Singapore education systems.

The school has a strong focus on mathematics and science, and its students have consistently performed well in national and international competitions.
