Geeky News Discusses DKSH's Seamless Transition to SAP S/4HANA

Surrey, United Kingdom Sep 13, 2023 (Issuewire.com**)** - Geeky News has published an article about DKSH's successful migration to SAP S/4HANA, titled "Leading Market Expansion Services Provider Migrated to SAP S/4HANA."

According to the article, DKSH, the prominent market expansion services provider, has achieved a significant milestone by seamlessly implementing SAP S/4HANA. This strategic move is poised to usher in a new era of agility, enhanced efficiency, and superior customer service for DKSH.

The meticulous two-year upgrade process has culminated in a successful migration to SAP S/4HANA, cementing DKSH's position as a pioneer in digital transformation within the industry.

For over two decades, SAP, the world's leading enterprise software provider, has been a trusted partner to DKSH. Leveraging SAP's innovative solutions, DKSH has streamlined its operations, optimised financial management, and empowered data-driven decision-making. The ongoing partnership between

the two is set to deliver on their commitment to digital transformation, benefiting customers worldwide.

Sam Oh, Chief Information Officer and Executive Committee member at DKSH stated, "Data is crucial for DKSH's success. We rely on processing large amounts of data quickly through platforms that comply with demanding customer service level agreements and strict regulations. We chose SAP to help upgrade our core ERP system to help optimise our operations, get access to higher quality data more quickly, and future-proof the business with automation and analytics."

Paul Marriott, President of SAP Asia Pacific and Japan, applauded DKSH's commitment to excellence, saying, "DKSH is a shining example of a business bringing together highly intelligent technology, a focus on customer service, and a core purpose of supporting the world's environmental health.

"We are proud of the value we continue to create on this journey with DKSH running on a foundation of SAP solutions, all implemented by SAP Cloud Success Services, to help enable greater efficiency and real-time analytics, and support its ongoing growth"

The migration from DKSH's legacy ECC platform to the cloud-first S/4HANA system was an intricate undertaking. It involved high-level customisation, the implementation of industry best practices, and outcome-driven expertise. SAP's end-to-end tailored services guided DKSH through this complex process. It enabled the project to be completed over the course of a single weekend with minimal downtime.

As demonstrated in this case, migrating business-critical data to the S/4HANA system is a multifaceted endeavour. Successful navigation of an S/4HANA project necessitates careful consideration of several critical factors, including data quality assessment and cleansing, data volume and complexity evaluation, data mapping, definition of data transformation rules, data governance and compliance, and seamless integration into existing systems and processes.

For enterprises seeking a successful SAP implementation, Geeky News recommends consulting an SAP data service expert like [Fission Consulting](). With cutting-edge tools, templates, in-house developers, and experienced project managers, these experts ensure the streamlined transformation of mission-critical data into the SAP HANA database, leading to efficient synchronisation and connection. The result is accelerated and successful IT transformations, ultimately maximising return on investment.
