

Integrated Technology Group (ITG) Signs Agreement to Implement Document Management System for Ghorooos Foundation

Amman, Jordan Sep 10, 2023 ([Issuewire.com](https://www.issuewire.com)) - Integrated Technology Group (ITG), a leading technology solutions provider, announced its strategic collaboration and agreement signing with Ghorooos Foundation, a distinguished Saudi charity organization operating under the patronage of the Ministry of Human Resources and Social Development. The agreement is about an implementation of

WaveDMS® as a cloud service, to enhance efficiency and transparency in Ghoroos Foundation's operations.

WaveDMS®, an advanced Document Management System solution from ITG, is designed to streamline document management processes, reduce paperwork, and ensure secure digital document storage. By implementing WaveDMS®, Ghoroos Foundation seeks to optimize its document handling practices and facilitate seamless collaboration among its various departments.

Mr. Zaid Tahabsem, Chief Business Development Officer of ITG, said: "At ITG, we are dedicated to delivering cutting-edge solutions that empower organizations to thrive. Our project with Ghoroos Foundation underscores our commitment to supporting organizations that make a meaningful impact on society. With WaveDMS®, we are confident that Ghoroos Foundation will experience enhanced efficiency and transparency in its vital work."

Ghoroos Foundation, operating with a strong emphasis on social responsibility, is known for its unwavering commitment to foster social development and provide critical support to the Saudi community. This upcoming project with ITG is a pivotal step towards modernizing the foundation's document management practices, allowing it to allocate more resources to its core mission of community betterment.

About Integrated Technology Group (ITG):

Integrated Technology Group (ITG) is an international company with offices in Silicon Valley, Jordan, Saudi Arabia, Egypt, and Africa, with a network of strategic partners and representatives in over 20 countries worldwide.
