**New York City, New York Oct 10, 2023 ([IssueWire.com](https://www.issuewire.com))** - A board-certified psychiatrist, Dr. Richmond sees patients at his private practice in Menlo Park, California.

His approach to patient care encompasses both psychological and biochemical aspects as needed. His primary focus is on individuals facing addiction and various challenges, emphasizing the struggle to fully engage with one's life. He finds his ideal client in those who are motivated to introspect and prepared to explore the complexities of their inner world.

In addition to his clinical work, Dr. Richmond plays several key roles in the field of psychiatry. He serves as an Adjunct Faculty Member at the San Francisco Center for Psychoanalysis, a Training and Supervising Analyst at the Institute of Contemporary Psychoanalysis, and a Clinical Assistant Professor of Psychiatry at Stanford University Medical School. For over a decade, he has also been a dedicated member of the Well-Being Committee at Stanford University Hospital, contributing to the institution's commitment to the welfare of its patients and staff.

In regard to his educational background, Dr. Richmond earned his Medical Degree from the Warren Alpert Medical School of Brown University in 1989. Subsequently, he completed his residency at Stanford University Medical Center in 1993 and followed with a fellowship in addiction psychiatry at Stanford in 1994. In 2008, he achieved a Doctorate in Psychoanalysis from The Institute of Contemporary Psychoanalysis in Los Angeles.

His professional certifications include board certifications in psychiatry and addiction psychiatry, and Dr. Richmond proudly holds the title of Diplomate of the American Board of Psychiatry and Neurology (ABPN). The ABPN is a not-for-profit corporation dedicated to serving the professions of psychiatry and neurology.

Psychiatry is the medical specialty devoted to the diagnosis, prevention, and treatment of mental disorders. These include various maladaptations related to mood, behavior, cognition, and perceptions. Psychiatrists evaluate, diagnose, and treat patients with mental, emotional, and behavioral disorders. They conduct thorough psychiatric evaluations, develop treatment plans, prescribe medication, and evaluate treatment results.
