Join the musical ride of Wasting May. This exceptionally skilled singer-songwriter duo from Orlando has released their long-anticipated debut album 'Machine'.

**New Smyrna Beach, Florida Sep 5, 2023 ([IssueWire.com](https://www.IssueWire.com))** - Creating a unique sound and building their stance carefully, the duo [Wasting May](#) is solidifying their names in the industry with every release. The duo's latest musical creation, '[Machine](#)' is now available on Spotify, and upon release, it is gaining praise from both the critics and fans overseas. The EP has a total of 5 tracks and is a representation of human experiences with loss. Ethan DeBoard and Evelyn May Nielsen are the two members of this duo who met several years ago but started writing and making music together very recently which resulted in the release of the duo's debut EP.

The EP heavily focuses on the feeling of losing a person or something and each track emphasis on that particular feeling of emptiness. Starting with 'INTRO', the EP gradually moves forward with the rest of the tracks, 'Body Running', 'Maureen', 'Far Away', and finally, the title track, 'Machine'. The duo debuted with the single 'Maureen' in May of 2023 and with the positive response, they went ahead to release their EP, critically acclaimed and refreshing with just the right amount of melancholy. Each of the 5 tracks in '**Machine**' demonstrates a different aspect of losing someone dear or something personal. The inmate lyrics on the tracks capture the souls of the listeners instantly. The depth of the songwriting is something that the audience resonates with their personal feelings, making the EP, one of the most beautifully made ones.

Not just the lyrics which began on a park bench, the poeticism got its life through the guitar strings of Ethan DeBoard which complemented the songwriting of Evelyn May Nielsen ideally. **Wasting May** is the perfect example of extraordinary talent meeting creativity and artistic expression. Vocally awe-inspiring this EP can soon be the one that puts the duo in the international spotlight. It is now available to stream on [Spotify](#) and for more updates, follow the dup on [Instagram](#) and [TikTok](#).
