

## Dr. William Wiedner, a Chiropractor with Harbour Medical Centers

Get to know Chiropractor Dr. William Wiedner, who serves patients in Florida.

**New York City, New York Oct 30, 2023 ([IssueWire.com](https://www.IssueWire.com))** - A licensed chiropractor, Dr. Wiedner is the owner of Harbour Medical Centers in Stuart, Florida.

Over three decades ago, Dr. Wiedner experienced a life-altering event that would shape his destiny. At the time, he was a sophomore in college, excelling as a second baseman on the baseball team.

However, an unexpected and excruciating low back pain emerged, rendering his baseball aspirations unattainable.

Despite consulting with a medical doctor who prescribed medication and assured that the pain would eventually subside, it persisted. The frustration of missing out on the pinnacle of his athletic career in his prime was disheartening. With his condition not improving, his coach had no choice but to sideline him, causing profound devastation.

Then, an extraordinary encounter transformed Dr. Wiedner's life forever. His roommate introduced him to a chiropractor.

Under the chiropractor's care, Dr. Wiedner remarkably returned to the playing field within a week, surpassing his previous performance. Reflecting on this pivotal moment, it became evident that meeting the chiropractor marked a turning point in his life. It was so effective that he decided to embark on his own journey into chiropractic.

In 1996, Dr. Wiedner graduated with his Doctor of Chiropractic Degree from Life University School of Chiropractic. Notably, his family boasts an impressive lineage of eleven chiropractors, including his wife, Dr. Christine.

Among his professional affiliations, Dr. Wiedner is an active member of the Florida Chiropractic Association, the American Chiropractic Association, and the International Chiropractors Association.

Chiropractic is a form of alternative medicine that mainly deals with the diagnosis and treatment of mechanical disorders of the musculoskeletal system, especially the spine. A chiropractor uses spinal adjustments, manipulation, and other techniques to manage patients' health concerns, including neck pain, back pain, headaches, vertigo and a long list of other ailments and conditions. They aim to improve patients' functionality and quality of life by properly aligning the body's musculoskeletal structure and enabling the body to heal itself naturally, without the use of medication or surgery.

In the course of his professional career, Dr. Wiedner has delivered more than 1,000 lectures on a wide range of topics within the community and throughout the United States.
