

Robert Zuckerman, MD, an Allergy and Immunology with Allergy & Asthma Specialists of Harrisburg

Get to know Allergy and Immunology Dr. Robert Zuckerman, who serves patients in Harrisburg, Pennsylvania.

New York City, New York Nov 1, 2023 ([Issuewire.com](https://www.Issuewire.com)) - Dr. Zuckerman stands as a highly

regarded allergist and immunologist, boasting an impressive track record of over four decades in the field. His expertise is a valuable addition to the team of healthcare providers at Allergy & Asthma Specialists of Harrisburg.

In addition to his work at this esteemed practice, Dr. Zuckerman holds an affiliation with UPMC Harrisburg, a 409-bed urban hospital in Harrisburg, Pennsylvania. It is a part of the University of Pittsburgh Medical Center system, known for its commitment to delivering exceptional medical care and fostering groundbreaking research.

A 1983 graduate of Ross University School of Medicine, Dr. Zuckerman went on to perform his residency at Columbia University. He then pursued a fellowship in allergy and immunology at Sidney Kimmel Medical College at Thomas Jefferson University/Nemours Children's Health in Wilmington. Through this specialized fellowship, he honed his expertise in diagnosing and treating a wide spectrum of allergies and immunological disorders.

Providing patients with the highest standard of care to breathe better and live better, Dr. Zuckerman is board certified in allergy and immunology by the American Board of Allergy and Immunology (ABAI). The mission of the ABAI is to improve the quality of medical care by the development and utilization of professional and educational standards for the initial certification and maintenance of certification of physician specialists in allergy and immunology.

Furthermore, he is board certified in pediatrics by the American Board of Pediatrics (ABP). The mission of the ABP is to advance child health by certifying pediatricians who meet standards of excellence and are committed to continuous learning and improvement.

Allergy and immunology involve the management of disorders related to the immune system. These conditions range from the very common to the very rare, spanning all ages and encompassing various organ systems. An allergist / immunologist is a physician specially trained to diagnose, treat, and manage allergies, asthma, and immunologic disorders, including primary immunodeficiency disorders.
