**“Numerous Africans died at the hands of greedy colonizers who were desperate to grab African land.” — Ugochukwu Nwaokoro**

Author Ugochukwu Nwaokoro teamed up with Bookmarc Alliance to partake in the 2023 Guadalajara International Book Fair this November 25 to December 3, 2023, at the Expo Guadalajara Convention Center.

In this book, author Ugochukwu Nwaokoro dives deep into the political, socioeconomic, and cultural predicament of Africa. He highlights the mismanagement and abuse of African resources, alongside possible solutions on how Africa and its people can reclaim their land.

He aims to encourage Africans and those of African descent to fight and expose the atrocities of the people who are taking advantage of Africa. According to him, “The need to write this book arose from the desire to wake the fighting spirit within Africans and those of African descent all around the world.”

He analyzes the impact of decades of colonization and trade policies on society and provides a comprehensive and insightful understanding of the situation of the nation. The book explores the current structures of power how the African government can extract from the natural resources that exist in the country and how to use the said resources to actualize their developmental strategies.

Author Ugochukwu Nwaokoro serves quality insight and information as a much-needed wake-up call to relevant stakeholders, to combat the exploitation happening in Africa.
