

Fariba Clapper, PharmD, RPH, NCMTM, CPGx, a Pharmacist with Golden Rose Pharmacy

Get to know Pharmacist Dr. Fariba Clapper, who serves patients in Roseville, California.

New York City, New York Nov 16, 2023 ([IssueWire.com](https://www.issuewire.com)) - A committed pharmacist, Dr. Clapper is the Owner of Golden Rose Pharmacy in Roseville, California. Board certified and deeply specialized, she navigates the complex landscape of medications with an unwavering dedication to her patients' well-being. Her passion for unraveling the intricacies of pharmacogenetics is matched only by her commitment to providing impeccable medication therapy management services.

For her, the heart of her profession lies in the people she serves. Her mission transcends the mere dispensation of medication; it's about understanding the unique genetic makeup of each individual and tailoring therapies that not only address their ailments but also enhance their overall quality of life. Her approach isn't merely scientific; it's deeply empathetic, recognizing the individuality of each patient and their distinct needs.

In regards to her academic background, Dr. Clapper received her Doctor of Pharmacy degree from the California Northstate University College of Pharmacy in 2018. Her goal is not just to alleviate symptoms but to ensure that each individual can lead a life that's as vibrant and unhindered as possible.

An active member of the National Community Pharmacists Association, she serves as a source of guidance and education, shedding light on the importance of pharmacogenetics and the critical role it plays in optimizing medication outcomes. Through her work, she not only transforms the lives of her patients but also influences the broader landscape of pharmaceutical understanding.

Pharmacy is the health science that links medical science with chemistry and it is charged with the discovery, production, control, disposal, safe and effective use of drugs. The practice of pharmacy requires excellent knowledge of drugs, their mechanism of action, side effects, interactions, mobility, and toxicity. Pharmacists, also known as chemists or druggists, are health professionals who specialize in the use of medicines, as they deal with the composition, effects, mechanism of action, and proper and effective use of drugs.

On a more personal note, Dr. Clapper attributes her success to family, friends, great education, mentors, and her patients throughout the years.
