

IARM achieves CREST accreditation for penetration testing

North Brunswick, New Jersey Nov 7, 2023 ([IssueWire.com](https://www.issuewire.com)) - IARM, a renowned cybersecurity leader, is proud to announce its achievement of [CREST-accredited member](#) status for its penetration testing services in Asia. CREST, an international non-profit organization representing the global cybersecurity industry, thoroughly evaluated [IARM's](#) penetration testing services to ensure they meet CREST's rigorous criteria. This accreditation attests that [IARM's penetration testing services](#) have undergone external validation, assuring clients of the quality and reliability of the service they receive, all underpinned by robust processes and policies.

"This prestigious accreditation emphasizes IARM's commitment to maintaining the highest standards in security testing and consulting services. CREST is internationally recognized for its stringent certification standards, and IARM takes great pride in not only meeting but exceeding these benchmarks," remarked Ganesh Narayanan, Co-Founder at IARM. "This accomplishment stands as a testament to our unwavering commitment to delivering outstanding cybersecurity services to our clients, underscoring our steadfast pursuit of remaining at the forefront of the industry."

"CREST is delighted to welcome IARM as an accredited member company," commented Rowland Johnson, President of CREST. "IARM successfully navigated our rigorous assessment process that scrutinized test methodologies, legal and regulatory compliance, data protection standards, logging and auditing, internal and external stakeholder communications, as well as data security maintenance. IARM's membership for its penetration testing services demonstrates the company's consistent delivery of the highest professional security service standards to its customers."
