

Luis L. Nadal, MD, a Vascular and Interventional Radiologist with Modern Vascular

Get to know Vascular and Interventional Radiologist Dr. Luis L. Nadal, who serves patients in Surprise, Arizona.

New York City, New York Dec 12, 2023 ([Issuewire.com](https://www.Issuewire.com)) - Dr. Nadal serves as a vascular and interventional radiologist at Modern Vascular in Surprise, Arizona, where he provides specialized care for his patients.

Licensed to practice medicine in multiple states, including New York, Pennsylvania, New Mexico, Virginia, Tennessee, Mississippi, Arizona, Colorado, and Texas, he has an extensive reach to offer his expertise across different regions.

In the early stages of his academic journey, Dr. Nadal earned his Medical Degree from the Universidad Iberoamericana (UNIBE) School of Medicine. Following this, he completed his internship at Albert Einstein College of Medicine of Yeshiva University from 1998-1999, his residency in radiology at Montefiore Medical Center from 1999-2003, and his fellowship in vascular and interventional radiology at Montefiore Medical Center from 2003-2004.

With board certifications in interventional radiology and diagnostic radiology, Dr. Nadal holds the prestigious title of Diplomate of the American Board of Radiology (ABR). The ABR is an independent, not-for-profit organization and is one of 24 national medical specialty boards that make up the American Board of Medical Specialties.

Dr. Nadal's diverse licensure, extensive academic background, and board certifications reflect his commitment to providing high-quality vascular and interventional radiology care to patients across various regions.

Vascular and interventional radiology (VIR) is an exciting subspecialty that utilizes image guidance to perform a variety of minimally invasive, vascular, and non-vascular procedures to treat a wide range of diseases. Vascular and interventional radiologists are board-certified physicians who are trained in both medical imaging and minimally invasive therapies. They deliver accurate, targeted treatments for complex and sometimes life-threatening diseases and conditions.
