

Fastek celebrates 10 years of IT excellence

Full-service technology solutions company empowers small business owners to do more for a decade

Owensboro, Kentucky Jan 20, 2024 ([IssueWire.com](https://www.IssueWire.com)) - [Fastek](https://www.fastekllc.com), a pioneering managed IT solutions firm based in western Kentucky, proudly announces its 10th anniversary this month.

Over a decade, Fastek has been instrumental in providing small businesses with comprehensive IT services, specializing in cybersecurity, network support, VoIP solutions, disaster recovery, and HIPAA compliance. This milestone reflects Fastek's commitment to ensuring operational efficiency and security for its clients, allowing them to focus on business growth.

A full-service technology solutions company, Fastek prides itself on providing great service and technical know-how to empower small business owners to do more.

"Small business owners waste loads of time on tedious IT tasks," said [Chris Murphy](#), founder and president of Fastek Services, LLC. "We implement and support your technology systems with excellence and professionalism. You don't have to be a big business to operate like one. We focus on the technology so you can grow your business with confidence."

Founded January 23, 2014, Fastek began with a mission to simplify IT complexities for small businesses. Its tailored approach, combining consultation, custom solution design, and effective execution, has set Fastek apart in the industry. By staying abreast of technological advancements, Fastek has consistently delivered cutting-edge solutions to its clients, ensuring their systems are efficient, secure, and future-proof.

Fastek's journey over the past ten years has been marked by significant achievements and relentless dedication to customer satisfaction. In 2023, [Fastek was named the Small Business of the Year](#) by the Greater Owensboro Chamber of Commerce.

As Fastek celebrates this important milestone, the company is excited about the future. Plans include expanding its cybersecurity service offerings and continuing to innovate in the IT sector, reinforcing its commitment to empowering small businesses. The company credits its success to the trust and support of its clients and the dedication of its talented team.

“Thank you for an incredible ten years,” said Murphy. “We are grateful for the support of our clients, partners, and community. You are the reason we work so hard every day to protect small businesses in western Kentucky, southern Indiana, and beyond.”

Fastek Services is a leading provider of managed IT services, specializing in creating efficient, secure IT systems for small businesses. For more information, visit Fastek at <https://fastekllc.com>.
