

## Ahmed Saleh, MD, an Orthopedic Surgeon with Southeast Orthopedic Specialists

Get to know Orthopedic Surgeon Dr. Ahmed Saleh, who serves patients throughout the State of Florida.

**New York City, New York Feb 19, 2024 ([IssueWire.com](https://www.IssueWire.com))** - Respected in the field of orthopedic surgery, Dr. Saleh is affiliated with Southeast Orthopedic Specialists, seeing patients at their offices in St. Augustine and St. Johns, Florida. Armed with a comprehensive understanding of the complexities of the spine, he tackles a diverse array of neck and back ailments with precision and compassion. He has

made it his mission to alleviate the suffering of individuals grappling with spinal conditions, be they adolescents or adults.

A cornerstone of his practice lies in his personalized and empathetic approach to patient care. Each individual who walks through his clinic doors is met with the utmost attention and respect, as he endeavors to tailor treatment plans to suit their unique needs.

Born and raised in New York, Dr. Saleh's academic journey commenced at Dartmouth Medical School, where he earned his medical degree. Fuelled by an insatiable thirst for knowledge in the realm of orthopedics, he pursued specialized training through a rigorous residency at Maimonides Medical Center. It was here that he honed his surgical skills and cultivated a deep understanding of the intricacies of spinal care.

Undeterred by the challenges of his demanding profession, he further sharpened his expertise through a coveted spine surgery fellowship at the University of Rochester Medical Center.

Following his training, the doctor attained board certification through the American Board of Orthopedic Surgery (ABOS). The ABOS is an organization with the goal of establishing educational and professional standards for orthopedic residents and surgeons as well as evaluating the qualifications and competence of orthopedic surgeons.

Professionally, Dr. Saleh is an esteemed member of the American Academy of Orthopaedic Surgeons, and the North American Spine Society. His groundbreaking work in the field of spine surgery has graced the pages of prestigious medical journals such as the Journal of Bone and Joint Surgery (JBJS), Spine, World Neurosurgery, and The Global Spine Journal.

Orthopedic surgery is the branch of surgery concerned with conditions involving the musculoskeletal system. Orthopedic surgeons use both surgical and non-surgical means to treat musculoskeletal trauma, spine diseases, sports injuries, degenerative diseases, infections, tumors, and congenital disorders.

Outside of the office, Dr. Saleh enjoys traveling, watching live sports, and spending time with his family.
