

John Lennon Jr., OD, an Optometrist with Duval Eye Associates

Get to know Optometrist Dr. John Lennon Jr., who serves patients in Jacksonville, Florida.

New York City, New York Feb 15, 2024 ([IssueWire.com](https://www.IssueWire.com)) - A seasoned optometrist, Dr. Lennon

tends to patients at Duval Eye Associates in Jacksonville, Florida.

Located in the Arlington area, Duval Eye Associates is known to be the best Eye Care Center in the area. They are committed to providing patients with exceptional care in a compassionate and friendly atmosphere. They believe that patients deserve the best care and they make an effort to make sure they always feel welcome and at ease.

Back in the early days of his academic career, Dr. Lennon completed his undergraduate education at the University of North Florida in 1985, before earning his Doctor of Optometry degree from the Pennsylvania College of Optometry in 1989.

Optometry is a healthcare profession that involves examining the eyes and applicable visual systems for defects or abnormalities, as well as diagnosing and managing eye disease. Optometrists are healthcare professionals who provide primary eye care through comprehensive eye examinations to detect and treat various visual abnormalities and eye diseases. Being a regulated profession, an optometrist's scope of practice may differ depending on the location. Thus, disorders or diseases detected outside the treatment scope of optometry (i.e. those requiring certain surgical interventions) are referred out to relevant medical professionals for proper care, more commonly to ophthalmologists who are physicians that specialize in the tertiary medical and surgical care of the eye. Optometrists typically work closely together with other eye care professionals, such as ophthalmologists and opticians, to deliver quality and efficient eye care to the general public.
