

## Kenneth I. Kohn, PhD, JD, a Pharmacist with Kohn & Associates

Get to know Pharmacist Dr. Kenneth I. Kohn, who serves patients in Farmington, Michigan.

**New York City, New York Feb 19, 2024 ([IssueWire.com](https://www.IssueWire.com))** - Dr. Kohn, a distinguished figure in the realms of intellectual property, law, and science, stands at the forefront of innovation and strategic counsel. As the Senior Partner of Kohn & Associates PLLC, an esteemed Intellectual Property law firm,

he brings decades of expertise to the table. His illustrious clientele includes prestigious institutions such as Harvard University, Pfizer (both in the US and Europe), the Weizmann Institute in Israel, and Northwestern University, alongside a plethora of startups worldwide.

With a keen eye for emerging technologies and scientific breakthroughs, he serves as the Managing Partner of Prebiotic Health Sciences and holds partnership positions in various technology and pharmaceutical startups, including the pioneering web-based medical company, OptimDosing. His extensive experience in melding business acumen, legal expertise, and scientific insight enables him to provide invaluable guidance in evaluating inventions for patent protection and navigating the complex landscape of intellectual property.

In regards to his academic background, Dr. Kohn holds a Ph.D. in Pharmacology and Immunology, earned from Wayne State University School of Medicine in 1979, laying the foundation for his profound understanding of scientific principles and innovation. Complementing his scientific prowess, he pursued a law degree (JD) from Wayne State University Law School in 1982, solidifying his expertise in intellectual property law.

Among his other roles, he is currently affiliated with Ferghana Partners, lending his unparalleled expertise in Intellectual Property to advise on matters pertaining to clinical and scientific affairs, guiding the organization in navigating the intricacies of protecting and leveraging intellectual assets for current and prospective clients.

Pharmacy is the health science that links medical science with chemistry and it is charged with the discovery, production, control, disposal, safe and effective use of drugs. The practice of pharmacy requires excellent knowledge of drugs, their mechanism of action, side effects, interactions, mobility, and toxicity. Pharmacists, also known as chemists or druggists, are health professionals who specialize in the use of medicines, as they deal with the composition, effects, mechanism of action, and proper and effective use of drugs.
