

RAISE Centre of Excellence by Dhanalakshmi College of Engineering in Association with MIT Square London

Chennai, Tamil Nadu Feb 16, 2024 (Issuewire.com) - In a groundbreaking initiative to propel innovation in the realms of Augmented Reality (AR), Virtual Reality (VR) and Mixed/Extended Reality (MR/XR) that can empower all disciplines and sectors, the establishment of the RAISE Centre of Excellence has been announced by Dhanalakshmi College of Engineering in association with MIT Square, London.

The RAISE Centre of Excellence which stands for Research, Applications, Innovation, Science-Technology and Entrepreneurship aims to serve as a hub for cutting-edge research, development, and collaboration in multidomain technologies. The centre is poised to bring together leading experts, researchers, students, and industry professionals to advance the frontiers of these immersive technologies.

The driving force behind the initiative is the recognition of the transformative potential of meta-technologies across various sectors, including education, healthcare, gaming, and enterprise. The centre will foster an interdisciplinary approach, combining expertise from fields such as computer science, engineering, psychology, and design to unlock new possibilities and applications for AR, VR, and MR/XR.

The CoE was inaugurated by the DCE Management - Dr. V.P.Ramamurthi, Chairman; Mrs. R.Dhanalakshmi, Chairperson; Mr. R.Ramesh Vishegu, Vice-chairman; Dr. C.Elanchezian, Principal; Dr. R.K.Natarajan, Dean Academics; Dr. M.Sivakumar, Professor & Head, Department of AI & DS; other

HoDs, Professors and students.

[Dr. Mithileysh Sathiyarayanan](#), Founder & CEO of [MIT Square, London](#) and [Ms. Bhuvaneshwari Loganathan](#), Co-founder of [MIT Square, Asia](#) were invited as chief guests.

Dr. Sivakumar has been appointed as the director of the RAISE Centre of Excellence. As part of the CoE, Dr. Revathi K has been offered a Post-Doctoral Fellowship in Thailand and she is working on Affective Computing with Emotional Intelligence. The centre's agenda includes spearheading research projects, hosting workshops and conferences, and providing a platform for startups and industry partners to collaborate on groundbreaking initiatives. Additionally, the RAISE Centre of Excellence aims to contribute to the training and development of a skilled workforce in different domains by introducing campus radio and other campus activities.
