**New York City, New York Mar 20, 2024 ([IssueWire.com](https://www.issuewire.com))** - A seasoned psychologist and Licensed Professional Counselor in Pennsylvania, Dr. Jackson's expertise lies in addiction counseling. In his clinical role, he has directly supported individuals battling addiction, providing them with expert guidance and support on their journey to recovery.

Pertaining to his educational pursuits, he received his Bachelor's degree in Philosophy and Religion from Susquehanna University, before pursuing further studies in Higher Education Management and Student Personnel Services, achieving A.B.D. status at Syracuse University, where he also obtained his Master of Science degree. Finally, he earned his Ph.D. in Counseling and Human Development from the University of Georgia.

Dedicated to education, Dr. Jackson is the esteemed Professor and Director Emeritus, as well as the Founder of the Drug, Alcohol, and Wellness Network at Bloomsburg University of Pennsylvania. Within the university, he served as the Director of the Center for Counseling and Human Development and was a valued member of the Graduate Faculty.

Beyond the borders of Pennsylvania, his influence extends globally. As a Fulbright Senior Scholar specializing in addictions, he has shared his expertise in various countries. His tenure as a Fulbright Scholar at the University of Malta and as a Senior Research Fellow at the School of Medicine and Health Sciences in Wellington, New Zealand, further underscores his commitment to advancing addiction studies internationally. He recently retired as Vice President and Professor from the Osteo Re School of Osteopathic Medicine in Bucharest, Romania.

Moreover, Dr. Jackson has lectured at prestigious institutions such as Rhoades House, Oxford University, United Kingdom, and has taught graduate courses in Romania, Turkey and Germany.

In his professional journey, he has not only contributed extensively to the academic and clinical realms but has also made significant strides in shaping public policy on drugs and alcohol, advocating for early identification and brief intervention, cost-effective treatment, and prevention strategies.

Psychology is the science of behavior and mind. It includes the study of conscious and unconscious phenomena, as well as feeling and thought. It is an academic discipline of immense scope. Psychologists assess, and aid with the psychological problems and behavioral dysfunctions resulting from, or related to, physical and mental health. In addition, they play a major role in the promotion of healthy behavior, preventing diseases, and improving patients' quality of life.
