

Erin Taylor, MD, a Radiologist with Advanced Radiology Consultants

Get to know Radiologist Dr. Erin Taylor, who serves patients in Shelton, Connecticut.

New York City, New York Mar 20, 2024 ([IssueWire.com](https://www.issuewire.com)) - Dr. Taylor epitomizes excellence and dedication in the field of diagnostic radiology, specializing in body imaging. As a valued member of Advanced Radiology Consultants, an esteemed academic-private practice radiology group in Connecticut that has a partnership with Hartford Healthcare, she brings a wealth of expertise and compassion to her practice.

Dr. Taylor began her medical career in Boston, first earning her medical degree from Harvard Medical School, followed by her intern year in Pediatrics at Boston Children's Hospital and Boston Medical Center. Her passion for radiology led her to Yale New Haven Hospital where she completed a Diagnostic Radiology residency and Body MRI fellowship.

As a testament to her success, Dr. Taylor has been honored with numerous awards and accolades, including being selected Chief Resident and Fellow of the Year during her time at Yale New Haven Hospital. She was selected by the American College of Radiology (ACR) for the prestigious Moorefield Fellowship. Her research contributions have been recognized by the Radiological Society of North America (RSNA), who awarded her presentation on ovarian masses "magna cum laude" and published her work in the acclaimed radiographic journal.

Dr. Taylor's area of expertise is in abdomen and pelvis imaging, with a focus on MRI modality, although she also enjoys reading general and emergency radiology cases in all modalities. Her deepest areas of interest include consultation on challenging cases to help solve diagnostic puzzles, imaging of abdominal and pelvic pain, ovarian mass characterization, prostate MRI, pelvic floor imaging, and oncologic imaging (specifically, hepatobiliary, gastrointestinal, and genitourinary tumors). She is grateful for the opportunity to collaborate with a wide range of physicians across specialties and is committed to providing high-quality radiologic interpretations to her patients.
