[Tracklist]

clockwork

■English translation of the song ‘Clockwork’.

Flutter, sparkle, Sparkle, madness.

I believed that beyond the sky was hope, I wonder when it was, someone’s laughter, I was collecting the things I love, Wanting to heal the wounds, even a little.

The music box spins round and round, Mixed up with sadness, The gears spin round and round, Will they tear me apart someday? The music box spins round and round, Mixed up with sadness, The gears spin round and round, Will they tear me apart someday?

Don’t open the red door, The clowns dance, laughing, The discarded spring mermaid, If it’s a love that will disappear someday, throw it away, Someday, open the blue door, The crybabies wish for the day they find the light.

Flutter, sparkle, the hand of the clock, Sparkle, round and round.
